WHOLESALE CATALOG

SOMERSET ROSE NURSERY - NEW BRUNSWICK, N. J.

TWO FINE NEW *Begonias* (*Semperflorens*)

Queen of the Pinks. An excellent variety for pots or bedding, growing dwarf and compact with light green glossy leaves. The flowers are a bright rose pink, of medium size and are produced abundantly regardless of size of plants. Many growers have written us commenting on the value of this variety.

We have arranged for a steady supply of 2 1/4" plants.

Price: **\$10.00** per 100

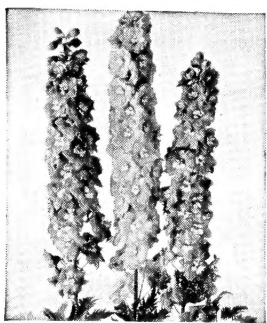

Red Monarch. A counterpart of the above, exactly the same in habit and growth except that the foliage is darker green with a slight bronze tint and the flowers are a brilliant dark red.

Strong 2 1/4", **\$12.00** per 100

Somerset's *25th Anniversary*

TWENTY-FIVE YEARS seems but a short time—since the founders started to grow field grown roses in a small way.

The ideals of quality, service, and satisfaction were even then firmly planted in their minds and, throughout the years of boom and depression, in the development of our seed and insecticide departments, these ideals have been the guiding spirit in our transactions with our friends and customers. We firmly believe that every transaction must be mutually profitable for continued progress.

It was our proud distinction, that the first plant patent ever granted any where was given to our introduction, The New Dawn, the first hardy everblooming climbing rose. Over the years our constant search for new and better varieties and methods has led us into numerous bypaths and a number of new varieties of perennials and improvements in other items are the results of our efforts.

We take this opportunity to thank our many friends for the help and encouragement you have given us in the past and we pledge ourselves, in the years to come, to continue our efforts to serve you to your full satisfaction.

LOUIS C. SCHUBERT.

Annual Garden and Greenhouse Flower Seeds for the Florist

➡ Tr. Pkt. Oz.
ACROLINUM (Everlasting) (9000 seeds per oz.)

New Large Flowered Double Hybrids. A splendid new strain with larger more double flowers. Useful for many purposes and can be used fresh or dried. \$0.15 \$0.85

Blue Perfection. Semi-dwarf blue.15 1.50

Golden Ageratum. Really golden yellow, forming compact 10-12" rounded plants. Given room and plenty of food it makes an excellent cut flower item on 20" stems 1/8 oz. \$1.25; 1/4 oz. \$2.00 .35

Midget Blue. The best of all dwarf Ageratum from seed. Very dwarf, compact, free flowering and an attractive shade of blue. Ideal for bedding. . . 1/4 oz. \$1.50 .50 5.00

ALYSSUM (Sweet Alyssum) (60000 seeds per oz.)

Carpet of Snow. The uniform compact growth of this variety has made it the most popular sort we handle. Our strain is especially reselected. . . . 1/4 lb. \$2.35 .15 .80

Lilac Queen. Dwarf, compact, lavender lilac 1/4 oz. \$0.25 .15 .75

Little Dorrit. Makes dwarf compact balls of pure white flowers. One of the best15 .75

Little Gem. A select strain of this old favorite 1/4 oz. \$0.25 .15 .75

Violet Queen. Attractive violet flowers make this a nice item for edging and contrast. 1/4 oz. \$.35 .20 1.25

AMARANTHUS (30000 seeds per oz.)

Useful plants for summer bedding and display.

Molten Fire. Brilliant poinsettia-like tips. . .25 1.35

Tricolor Splendens. Yellow, red and green15 .50

ANCHUSA (1200 seeds per oz.)

Blue Bird. Sprays of forget-me-not like, indigo blue flowers are produced freely. Excellent to cut15 .75

ANEMONE (40000 seeds per oz.)

Coronaria St. Brigid, Creagh Castle Strain. Extra fine flowers on long stiff stems. Flowers four months after sowing. Requires cool temperatures and rich light soil 1.00

MORE IMPORTANT THAN EVER—

Sterilize all soil used for sowing seed. One tablespoonful of Formaldehyde solution diluted with six of water thoroughly mixed with a flat of soil will kill most fungi. Seed may be sown 12-24 hours after treatment.

Save time, seed and labor.

SNAPS

FOR GREENHOUSE FORCING

The best possible strain you can get, is the first step toward a profitable crop. The originator has a selfish interest in keeping his introduction up to the highest possible standard, therefore because of this, we handle originator's greenhouse grown strains almost exclusively.

NEWER INTRODUCTIONS

Better Times. The color of the Better Times rose with the habit of the profitable and popular Christmas Cheer.

Bronze Christmas Cheer. Deeper than Suntan in color, non-shattering. Flowers at the same time as Christmas Cheer with stronger stems.

Carol Jean. Attractive yellow a shade lighter than Ethel.

Christmas Cheer. The most popular pink.

Goldie. A fine yellow introduction by Windmill. Attractive, free flowering, good habit and early.

Margaret. An ivory white developed by the introducer of Mary Ellen. Somewhat similar in growth this is recommended as a fine winter flowering white.

Marie Louise. Light shell pink. Best for spring bloom.

Mary Ellen. Popular silvery pink.

Maryland Pink. Early light pastel pink and free flowering.

Paper White. A pure white introduction by Schlegel, an improvement over his Early White.

Peggy Schumann. Fine early rose pink.
Originator's Packets of the above \$2.00
Any three \$5.00; Any five \$7.50

Bezdek's White Wonder Imp. Excellent early white.

Ethel. Fine early yellow, probably the best, undoubtedly the most popular.

Earlier Glorious. A selection by Windmill that will flower several weeks before the regular type.

Gilbert's Pink Supreme. Deep rose, preferred by many over Rose Queen.

Glorious. Reddish copper bronze. Rather late flowering.

Koester's White. A splendid pure white and one of the best.

Klondyke Supreme. Rich deep yellow, producing heavy spikes. Good for late winter and spring.

Lucky Strike Improved. A distinct improvement on the original. Earlier and with more and better spikes.

Radiance Improved. An improved strain of this very fine variety. Medium deep pink, free flowering and early.

Salmon Gold. Several shades lighter than Glorious. Flowers early and excellent for a winter flowering bronze.

Schlegel's Early Yellow. A good early sort.

St. Louis Early Pink. Vigorous and robust growing with light silvery pink blooms.

Velvet Supreme. Rich velvety scarlet red.

Earlier Westover White. A great improvement in earliness, color, purity and uniformity. Recommended as an all season white.

White Prosperity. Continues to be a popular, profitable all season white.

Windmill's Lilac. Absolutely true to color and the best in this shade.

Originator's Packets any of the above \$1.50
Any three \$4.00; Any five \$6.50

SNAPDRAGON—Continued

STANDARD VARIETIES

Afterglow. Golden orange, an old favorite.

Ceylon Court, Dark Selection. A good early yellow, however Ethel is more profitable.

Cheviot Maid Supreme. At one time the most popular pink, now supplanted by Christmas Cheer. Still a good variety.

Christmas Red. Extra early crimson.

Lucky Strike. A vigorous late white. We recommend the improved variety as being more profitable.

Maiden's Blush. Appleblossom pink.

New Cincinnati. The standard light pink.

Rose Queen. Vigorous deep rose pink.

Rose Pink Cheviot. A good selection.

Snow White. Without question, the best late white.

Suntan. Early flowering orange tan.

Westover White. Rather late but when well grown a profitable sort.

Velvet Beauty. The standard American Beauty red.

Originator's Packets of any of the above \$1.00 each

Most of our customers prefer originator's seed as it is nearly always more true to type. We can also supply above mentioned standard varieties not originator's seed at \$1.00 per packet; any three for \$2.50; any five for \$3.50; 1/2 packet \$0.60 each. This seed is less liable to be true and therefore we recommend originator's strains.

GARDEN SNAPDRAGON (220000 seeds per oz.)

We offer Rust Resistant Strains only.

ASTERS

(12000 seeds per oz.)

Wilt is a soil borne disease and can only be entirely prevented by soil sterilization. This is comparatively easy and inexpensive. Where steam is not available, formaldehyde gives good results. We will be glad to furnish instructions on the use of this material. Where the soil is reasonably clean of wilt, good results may be had with wilt resistant strains such as we offer. Yellows is carried mainly by leaf hoppers and, to prevent infection, cloth or greenhouse protection is necessary. The longer stems and larger flowers usually pay for this extra care.

QUEEN OF THE MARKET IMPROVED (Wilt Resistant)

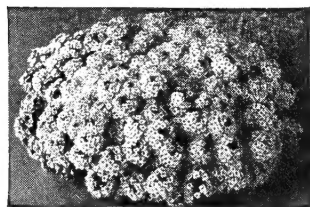

Useful mainly because of their earliness, flowering in early August.

GIANT DOUBLE RUFFLED AND FRINGED

Originally developed from the famous Shepherd Strain. Noted for its fine color range, this has been refined to where it is more compact and produces 65% true double fringed flowers of immense size. The balance are semi-doubles and singles which because of their gigantic size and color will sell readily.

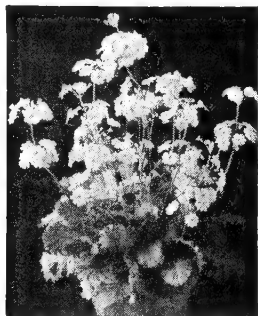

This strain is superior to the All Doubles for bedding and box work and makes an excellent pot plant when well grown. Because of their vigor they must be grown close to the glass with plenty of ventilation.

SALVIA (Scarlet Sage) (7500)

Due to extreme heat and drought of the summer 1944, this item was a complete crop failure, except blue varieties.

Quality of strain is just as important in Salvia as in any other item. Long before the war we grew our own seed to insure getting true even stock and we have continued improving our strains steadily until now we have something really outstanding. Regardless of the variety you buy you may depend upon it to be the best you can get.

Stock Bismarck Improved

This important cut flower lends itself especially for war time use. Requires little heat or labor, the column varieties being especially valuable in this regard. Careful selection of the strongest and notched leaved seedlings and proper feeding (1 lb. ammonium sulphate to 100 sq. ft. every two weeks until buds form) will assure a very high percentage of doubles.

Dahlia—Unwin's Dwarf Hybrids—Annual

During the past few years we, like yourselves, have been working under difficulties with regard to lack of materials and the ability to produce the same quantities as before the war. The nationwide drought has also helped curtail supplies of seed and plants in a number of important items and given a knockdown punch to the already reeling Victory Garden movement. Without Government encouragement, this will be much smaller in 1945 than last year. You will need some vegetable plants but don't overdo them. There should be a good market for flowering plants from all the new gardeners developed by the Victory Garden movement. Try to hold them!

Hardy Perennials and Rock Plants

Our stocks of perennials are limited and due to manpower shortages, we have been compelled to drop many items. On our specialties like Gypsophila Bristol Fairy, Bleeding Hearts, Chrysanthemum, Delphinium, Phlox and a few other items, we have managed to produce sizable quantities although in no way sufficient to meet all demands. Throughout we have maintained our policy of good quality and soon we hope again to be able to serve you as in the past.

Varieties marked: (R) suitable for Rock Gardens; (C) suitable for cutting; (S) will grow in the shade.

PRICES: 1-3 of a variety at the each rate which is 10c added to the 100 rate; 4-24 plants at 10 rate; 25 or more of one variety at the 100 rate.

TWO NEW GREENHOUSE MUMS

See Special Mum Catalog for full list

SUNNYSIDE (Yoder Bros.)

A persistent demand from all wholesale growers calls for a round, hard flower that will ship and handle without bruising or other damages. Sunnyside exactly fills this demand. In addition to this, it is a strong grower and will consistently produce a heavy crop of well branched sprays that are easy to bunch. The quality of the flower is equal or better than any existing yellow pompon regardless of season or growth habit. The color is a clear brilliant yellow. It matures for Thanksgiving and later. It will hold well on the bench.

\$50.00 per 1000

NEVADA

A desirable and useful anemone producing flowers of high quality for Thanksgiving. The color is pure white with a chartreuse green center. This variety responds well to generous spacing and disbudded spray technique. For the grower who appreciates Europa, Valencia and its sports, Nevada provides a white of equal quality.

\$100.00 per 1000

Roses

SORRY WE ARE SOLD OUT FOR THE SEASON 1944-1945

A nationwide survey shows that this year's crop of roses over the entire country is approximately 25 per cent of normal. Lack of experienced and sufficient manpower is the reason. Next season we hope will be somewhat better but production will be below normal.

GLADIOLUS

Plump Michigan grown bulbs

The New Dawn

Plant Patent No. 1

A REAL AMERICAN DOORYARD ROSE

Hardy—Really Blooms All Summer

Dark green glossy foliage

Vigorous climber

Well formed, double, fragrant flowers

You can recommend it.

Since its introduction The New Dawn has been grown in every state. North or south it has been commended for its free blooming quality and general usefulness. Especially in the section where intense cold makes it difficult to grow most climbers, The New Dawn seems to outdo itself and gives even better results than with us here in New Jersey.
